

## **President's Report to the 2024 Saskatchewan Branch AGM**

Ciamar a tha ha chi and welcome. It has been great to be able to get back to full-time dancing again. Work shops, banquets, and balls have been popping up all over the world. The executive has been busy at work keeping all the affairs of the branch up to date. As nice as it has been to get together in our little world, I feel it is necessary to try to include the rest of the world. One of my main concerns is that Scottish Country dancing is starting to diminish here in Saskatchewan. In the larger centers they have a much larger population to draw from. We as a group, and especially the Executive, need to find a way to keep the spark of the dance alive. So, here's to dancing, may it never stop.

Ron Mclean
